Advices from Portland.

PORTLAND, September 27th.—Intense excitement prevails at St. Helena over the murder of J. B. Young, whose body was found near Kalama yesterday. The Coroner's jury returned a verdict of murder, committed by one Delaney, who resided in this city. Delaney was seen last in the company of Young. Both were intoxicated at the time. Delaney was arrested and had a preliminary examination, but for want of proof was discharged. He was held as a witness. He claims to know nothing of the murder, but says he heard some one say to Young during the night, "If you come around here again I'll crush your head." He was very drunk, and remembered nothing more until next morning, when they told him Young had been murdered.

The latest news from Powell's valley, some six teen miles cast of Portland, is to the effect that the fire is still raging in that vicinity. The ravages of the forcest fires are great, the suffering severe and the losses to property very heavy. The damages are confined simost exclusively to farmers. Many have lost everything—dwellings, barns, fences and crops. Several cases of absolute destitution are reported. The fire is scattered over a large area of country, and is still spreading. Owing to the lack of wind the flames make slow headway. When and where the fire will stop it is impossible to tell. Everything is as dry as tinder, and no human power can check the power of the flames. No exaggeration places the damages to farms and forests at, say, \$500,000.

ISECOND DISPATCH 1 LONDON, September 27th .- The Daily Chron LONDON, September 27th.—The Daily Chronicle has issued a postscript, stating that there is great excitement in Dublin, owing to a rumor that Orangemen had shot Parnell. There appears to be some truth in the report. At any rate, it is certain that Parnell is wounded. It is stated that the bullet went through his body. Another account says the affair was accidental. No further details have been received. A dispatch from Dungannon states that a covered car, containing supposed Parnellites' was fired into, but the occupants were not hurt. This probably explains the rumor that Parnell has been shot. THIRD DISPATCH.1

Dungannon, September 27th.—A Home Rule meeting and an Orange meeting were held to-day. The police prevented a collision, and there was no serious rioting, although there were some disorders, and a number of arrests were made. Despite the wet weather, the Orange demonstration was very largely attended. All the streets leading to the place of meeting were guarded by police and largely attended. All the streets leading to the place of meeting were guarded by police and soldiers. Resolutions were passed pledging those present to resist the treasonable aims of the National League, and denouncing the establishment of the ultramontane communist tyranny in Ireland. The Nationalists' meeting passed resolutions expressing confidence in Parnell, demanding home rule, and claiming that the Land Act is a failure. Healy, O'Connor and O'Brien—members of Parliament—were the principal speakers. At the conclusion of the meeting they were escorted to the railway station by soldiers and police. MINING NOTES.

The Butte creek mines occasionally crop out with plenty of gold. New discoveries have been made twenty niles northeast of Providence, Col., near Goff's, on Southern Pacific Railroad. Important nickel ore discoveries have been made in Churchill county, Nevada. Specimens assayed yield thirty per cent. pure nickel.

A prospecting company has been formed in Grass Valley, and it is their intention to keep experienced miners on the road all The Bingham, U. T., miners find it very

remunerative to concentrate their ores, and that camp. Among the many valuable minerals reently discovered is a mine of tellurium or Arastra creek, on the other side of the Col

orado, in Yavapai county, A. T. Improvements at the Brunswick mill, on the Carson river. Lyon county, Nev., are being made, and when completed the mill will be one of the best in the State. Rich gold-bearing quartz veins are very numerous in that portion of Mariposa county located between the towns of Hor-

nitos and Mariposa, and the Mariposa Improvement Company is organizing to work THE ACRE CANAL. - A leading London ournal, in discussing the proposition to pen a new canal from the Bay of Acre to he Jordan valley and thence to the Gulf of Akabah, presents some rather discour-

aging facts and possibilities regarding it. There would be no insurmountable difficulties encountered in cutting through the twenty-five miles between Acre and the point where the level of the Mediterranean would be reached, on the plains of Esdraelon, but when the grade between the Gul of Akabah and Jordan valley was reached. then even the most sanguine engineer would quail. Here appears the seeming absurdity of the scheme. Years would be required to fill the immense depression evaporation and absorption must be allowed for : and the current that would be set in motion would be so terrific in its force that no human control could be exercised over it. In spite of these drawbacks and the gloomy views of the Standard Americans will be inclined to look on the plan of cutting the canal as one likely to be tried, and that, too, with success. -[Boston Advertiser.

A RAPID AND NOVEL RIDE. -The Chico Record says :

A party from Chico, consisting of two gentlemen, went to the mountains recently on a tour of recreation, and to spend short time hunting. After completing their hunting tour they resolved to return home. They did not take the usual slow method of getting home, but concluded to return by the Sierra Lumber Company's flume, a thrilling and lightning-like way of traveling. Before the sun was up they had their peculiar flame boat constructed at one of the sawmills, and launching the craft they came dashing valley-ward with a speed that would make Jay-Eye See turn green with envy. The morning was so cool that frozen into small icicles. But they came along so fast that they soon came into a warmer region. At the first station they came to they had their boat stopped, and the pre-emption law, and that there is no need of rested for several hours. They took their noonday meal and then started on and soon the three laws remain a settler may take advantage arrived in Chica, well pleased with their arrived in Chico, well pleased with their rapid but novel ride.

A MASONIC RELIC -The lodge of Masons in which George Washington was "initiated, passed and raised," Fredericksburg, No. 4, was pillaged in 1862 when that town was attacked by hostile soldiery, the lodge safe blown open and the records, regalia, jewels, etc., carried off. Among the articles taken was an old jewel of solid silver in the form of a "level," highly prized by the lodge for its antiquity. The old relic was recently discovered by the Secretary of Integrity Lodge, No. 158, A. F. and A. M., of Philadelphia, in the safe of that Lodge, where it had been deposited for safe-keeping during the war by a former member of Integrity Lodge, who had re-covered it from a soldier who acknowledged having taken it from the ledge room of No. 4. A note tacked to the jewel required its delivery to No. 4 "when the State of Virginia should cease to be in open rebellion against the authority of the Government of the United States." RUSH IN A WATERING-PLACE KITCHEN. An Albany hotel-keeper says the destruction of dishes at popular hotels is enormous, and at some places a man is employed to sort over the swill for the express purpose of picking out the dishes. "You should get into the kitchen of a large hotel when a rush comes," he says. " Everything goes—spoons, forks, knives, and dishes. Generally the silverware is marked,

and so it is returned by the contractor. The waiters are very indifferent. Why, do you know, I once saw a waiter with a salver full of clean goblets, which cost \$1 90 a dozen, actually slide them into the broken glass barrel to save him the trouble of setting them on the shelf. The destruction in a watering-place kitchen during a rush is terrible."

certain one in the dryest years.

There is comparatively no waste land on the farm, and no trace of alkali. White and live oaks are scattered over the tract. Every inch of land is tillable. There is no failure of crop in this section, and in 1877, a dry year throughout the State, a fine, full crop was grown on this ranch Sixinches of rain will insure crop. No rust troubles the grain.

An underlying strata of pure water is found free from alkali or deleterious matter. Numerous living springs are scattered over the ranch. For domestic purposes wells have been bored, and windmill and horse power are utilized. Rainfall Always Sure. No Failure o Crops.

The climate is even and equable, and during the summer months the regular trade wind makes it lelightful. The nights are cool and pleasant. The land is about 300 feet above sea level, and ruit trees and vines do not suffer from frest. Police Court.

The following business was transacted in the Police Court yesterday morning: Peter Leonard, the case of disturbing the peace continued from the day before, was heard, his wife appearing and testifying against him. He was found guilty and fined \$5. Robert and Mary McGinley, charged with grand larceny in stealing \$120 from the house of Mrs. Toler at 314 Fourteenth street, on Friday last. They are an aged couple, and claim to be husband and wife, and were selling bogus jewelry, Arizona diamonds, etc., and pleading extreme poverty. Mrs. McGinley went into the house, and in disposing of some jewelry she noticed that Mrs. Toler had some gold coln in the bureau drawer. Mrs. McGinley went into the house, and in disposing of some jewelry she noticed that Mrs. Toler had some gold coln in the bureau drawer. Mrs. McGinley wasked Mrs. Toler to get her an old pair of shoes, diamonds, etc., and pleading extreme poverty.
Mrs. McGinley went into the house, and in disposing of some jewelry she noticed that Mrs. Toler had some gold coin in the bureau drawer. Mrs. McGinley asked Mrs. Toler to get her an old pair of shoes, and while Mrs. Toler was in the next room Mrs. McGinley took the recovery from the drawer. As see and while Mrs. Toler was in the next room Mrs. McGinley took the money from the drawer. As soon as Mrs. Toler returned with the shoes she noticed that Mrs. McGinley was very much excited, took the shoes and hurried out, saying her daughter was waiting for her on the sidewalk. As soon as she got to the sidewalk she met Mr. McGinley and handed him the stolen money. They then went to the depot, purchased a ticket for San Francisco, but were arrested before the train left. Several of the coins taken from defendants were identified by Mrs. Toler, they being of a very rare date. They were both beld to answer to the Superior Court on a charge of grand larceny, with bail fixed at \$1,000 in each case. James Morgan, a vagrant, was sentenced to forty beld to answer to the Superior Court on a charge of grand larcenty, with bail fixed at \$1,000 in each case. George Saliman, conv eted of disturbing the peace, was given twenty days in the chain-gang, or the alternative of paying a \$20 fine. Thomas J. Connor, charged with vagrancy, was discharged, it appearing that he was a man of weak mind, and upon the representation of his wife that she would see that he was properly taken care of. Edward Doran, charged with vagrancy, and who on Wednesday demanded a jury trial, came into Court, plead guilty and was sentenced to forty days' imprisonment in the County Jail. Stanislaus Aguilar, whom it was charged assaulted the old Indian garbage woman while he was intoxicated, was found guilty and sentenced to pay a fine of \$10, and costs. The fine in this case was made light on account of the fact that both were under the influence of liquor. Joseph Frey was found guilty on a charge of forgery. It appears that some time since he forged the name of his stepmether to an order for clothing on a dry goods store. The goods were obtained and the forgery not detected until the bill was presented to Mrs. Frey for payment. The following is a copy of the order:

THE LENTINI TRIAL

The trial of John Lentini for the murder of Mrs. M. Troai was commenced yesterday in Department Two of the Superior Court, before Judge T. B. Mc-Farland. The people were represented by District Attorney John T. Carey, S. Solon Holl and Henry

When the case was called, Mr. Edgerton asked the ontinuance of the case until 2 P. M., on account of Eve, November 29th. the absence of two material witnesses, one of whom was Wm. Mr. Edgerton said the officer had been unable to serve a subpena on Raffety, as the latter had been in the mountains with his sheep, and the officer did not know where to find him. He was in Galt on Sunday last, but had gone back into the foothills to look for some lost sheep. He thought if the case was continued until 2 r. M. the defense would be able to ascertain whether this important witness could be found, and if he could not, then the defense would have to ask for a continuance.

Judge Holl said the prosecution was ready to proceed. If they were not ready in the Lentini case, he would ask to take up the next case, that of Troai, and proceed with it.

The District Attorney said he should object to the taking up of Troai's case, as he was not ready.

Mr. Edgerton again asked that the case go over until 2 o'clock, saying that Mr. Wriston, Raffety's partner, also an important witness, was absent, and he expected that both would arrive on the afternoon train.

train.

The Court said it was very strange that Raffety, a witness to whose evidence so much importance was attached, had not been subpensed. He would not continue the Troal case on account of Raffety's absence. If Raffety was not present it was the Court's impression he would not be in attendance

These are the cases that were referred to Judge P.

O. Hundley to make findings upon questions of fact, and which findings were submitted some time ago. The only issue in these cases is that of the statute of limitations. It is contended by the city counsel—W. A. Anderson and Freeman & Catlin—that all coupons over four years due are barred by the statute of limitations, and all the coupons in volved in these cases being of that character, that no rule of Court or law can enforce the payment. Counsel for the plaintiffs—Belefer & Belcher and Mastick & Mastick—contend that, oy the enactment of several special Acts of the Legislature, the question of limitation is expressly waived, and the eity is estopped by reason of the special Acts and the registration of the coupons by the City Treasurer.
